SUBJECT INDEX*

Book reviews are indicated by (*B. Rev.*); editorials by (*E*).

A

Abdome, técnica cirúrgica, 151 (*B. Rev.*)
Abdominal cavity and local wounds, sulfonamide compounds in, improved method for implantation of (Fox), 361
operation, gas pains following, investigation of cause and prevention of (Davis and Hansen), 492
Abscess, tuberculous, of thyroid gland (Klassen and Curtis), 552
Absorption patterns, intraperitoneal, of sulfonamide drugs (with special reference to microcrystalline sulfathiazole) and comparison of coincident concentrations in portal vein, systemic circulation, and peritoneal fluid (Pearce et al.), 351
Acid, ascorbic, certain derivatives of, and certain sulfonamide drugs, in experimental gas gangrene in wounded mice (Ryan et al.), 47
Acidity, gastric, evaluation of effect upon, and failure of such transplants to afford protection against ulcer provoked by histamine in beeswax; pedicled jejunal transplant onto gastric wall (Kolouch, Jr., et al.), 667
Action, heparin, study of effect of five bacteriostatic agents on, and efficacy of heparin administered by intravenous, intramuscular, and subcutaneous routes (Walker, Jr.), 54
Acute appendicitis, sensation of gas stoppage during onset of (Keyes, Jr.), 270
pancreatitis (Morton), 475
perforated lesions of stomach and duodenum with diffuse soiling of peritoneal cavity, gastric resection for certain (Bisgard), 498
Administration, safe, and dosage, use of dicumarol in prevention of postoperative thrombosis and embolism, with special reference to (Barker et al.), 207
Aliment, synthetic predigested, for jejunostomy feeding (Hollander et al.), 754
Allergic pathogenic mechanism of thyrotoxicosis (Wilensky), 61
Amputations, finger, treatment of tendons in, and description of new instrument (Webster), 102
Anatomic and surgical significance of mammillary tubercle of last thoracic vertebra (Kaplan), 78
Anatomy, clinical, of vertebral veins (Norgore), 606

*January, pp. 1-152; February, pp. 153-318; March, pp. 319-474; April, pp. 475-640; May, pp. 641-772; June, pp. 773-900.

Anesthesia for burned patient (Papper), 116
prolonged spinal (Roman-Vega and Adriani), 524
Appendectomy and herniorrhaphy, pulmonary complication following (Hughes and Lambeth), 533
Appendical peritonitis (Ochsner and Johnston), 873
Appendicitis, acute, sensation of gas stoppage during onset of (Keyes, Jr.), 270
and sulfonamide drugs (Sewell), 32
Application, local, of sulfathiazole, influence of, on incidence of infections in surgical incisions (More), 22
Arterial spasm secondary to ligation and retrograde injection of saphenous vein (Tunick et al.), 413
Ascorbic acid, certain derivatives of, and certain sulfonamide drugs, in experimental gas gangrene in wounded mice (Ryan et al.), 47

B

Back, low, conservative and operative treatment of lesions of intravertebral discs in (Key), 291
Bacteriostatic agents, study of effect of five, on heparin action, and efficacy of heparin administered by intravenous, intramuscular, and subcutaneous routes (Walker, Jr.), 54
Baruch committee on physical medicine, 146
Bezoar, large intragastric lesion simulating; gastric schwannoma (Sanguily and Blanco), 328
Bilateral gynecomastia, pubertal, treatment of (Buirge et al.), 397
Blast injury of lung (Carlton, Jr., et al.), 786
Blood pressure and intrapleural pressure changes, attempt to correlate; cardiovascular disturbances following pneumonectomy (Seybold and Clagett), 538
whole, and electrolyte solution or plasma, effect of treatment with, following experimental burn; metabolic alterations following thermal burns (IV) (Abbott), 794
Bone regeneration following osteomyelitis (Mayers), 463
Book reviews, 148, 318, 640
Books received, 772
Breasts, enlarged, plastic surgery in reconstructing (Lamont), 379
Burned patient, anesthesia for (Papper), 116
Burns, thermal, metabolic alterations following (IV) (Abbott), 794

C

Caffeine, influence of, on ulcer genesis (Merendino et al.), 650
Caffeine-induced ulcers, pathogenesis of (Roth and Ivy), 644
Calibrated skin-grafting knife, modified (Marcks), 109
Cancer and gastric ulcer (Allen), 750
Carcinoma of rectum, urologic problems associated with surgical treatment of (Lazarus), 284
of stomach, survival after gastric resection in (Custer), 510
Carcinomatous degeneration, total colectomy for polyposis of colon with (Wilensky), 630
Cardiovascular disturbances following pneumonectomy (Seybold and Clagett), 538
Cartilage grafts, homogenous (Young), 616
Chemical and other injury to exposed mucosal surfaces, direct visual technique for studying (Kolouch, Jr.), 641
Chronic staphylococcus infections, value of staphylococcus toxoid in treatment and prevention of (Jern et al.), 363
Chylothorax, traumatic (Florer and Ochsner), 622
Circulation, systemic, portal vein, and peritoneal fluid, intraperitoneal absorption patterns of sulfonamide drugs (with special reference to microcrystalline sulfathiazole) and comparison of coincident concentrations in (Pearce et al.), 351
Cirúrgica abdome, técnica, 151 (*B. Rev.*)
Clamp, new hemostatic (Cubero O.), 138
Clinical anatomy of vertebral veins (Norgore), 606
Closure, plastic, of skull defect (Harris and Woodhall), 422
Clotting, intravenous (Ochsner), 240
Colectomy, total, for polyposis of colon with carcinomatous degeneration (Wilensky), 630
Colon, surgery of, succinylsulfathiazole and phthalylsulfathiazole in (Poth), 773
traumatic perforation of, as seen in general hospital (Colcock), 1
with carcinomatous degeneration, total colectomy for polyposis of (Wilensky), 630
Complications, pulmonary, following appendectomy and herniorrhaphy (Hughes and Lambeth), 533
Compression, ischemic, of extremities, effects of environmental temperature on traumatic shock produced by (Green and Bergeron), 404
Congenital absence of gall bladder (Dixon and Lichtman), 11
malformations of kidney, orthopedic surgery for reconstruction of (Gutierrez), 122
Conservative and operative treatment of lesions of intervertebral discs in low back (Key), 291
Conversion, practical, of Flagg type laryngoscopes (MacQuigg), 472
Cotton sutures in surgery of warfare (Sparkman), 73
Cranioplasty with tantalum plate (Echols and Colclough), 304
Crush injury, clinical case of renal impairment following; disaster following femoral vein ligation for thrombophlebitis; relief by fasciotomy (Dennis), 264

D

Degeneration, carcinomatous, total colectomy for polyposis of colon with (Wilensky), 630
Dental treatment of maxillo-facial injuries, with supplementary material on cases and techniques, 149 (*B. Rev.*)
Dicumarol, use of, in prevention of postoperative thrombosis and embolism with special reference to dosage and safe administration (Barker et al.), 207
Discs, intervertebral, in low back, conservative and operative treatment of lesions of (Key), 291
Diseases, virus, in man, animal, and plant, 148 (*B. Rev.*)
Dissection and excision, principle of, in continuity for primary and metastatic melanoma of skin (Pack et al.), 849
Dosage and safe administration, use of dicumarol in prevention of postoperative thrombosis and embolism with special reference to (Barker et al.), 207
Drugs, certain sulfonamide, and certain derivatives of ascorbic acid in experimental gas gangrene in wounded mice (Ryan et al.), 47
sulfonamide, and appendicitis (Sewell), 32
Duodenal ulcer, ruptured, case complicated by; traumatic chylothorax (Florer and Ochsner), 622
ulcers, perforated, treatment of (Graham and Tovee), 704
Duodenum and stomach, acute perforated lesions of, with diffuse soiling of peritoneal cavity, gastric resection for certain (Bisgard), 498

E

Editorial, 315, 770
Electrolyte solution and whole blood or plasma, effect of treatment with, following experimental burn; metabolic alterations following thermal burns (IV) (Abbott), 794
Embolism and thrombosis, postoperative, use of dicumarol in prevention of, with special reference to dosage and safe administration (Barker et al.), 207
postoperative pulmonary (McCartney), 191
Empyema thoracis with penicillin, observations on treatment of (Blades et al.), 572
Enteritis, regional, of proximal jejunum following trauma (Spellberg and Gray), 343
Environmental temperature, effects of, on traumatic shock produced by ischemic compression of extremities (Green and Bergeron), 404
Etiology and prevention of thrombosis of deep leg veins (Hunter et al.), 178

Excision and dissection, principle of, in continuity for primary and metastatic melanoma of skin (Pack et al.), 849
and elective occlusion of portal vein (Brunschwig et al.), 781
Experimental evaluation of satisfactory operation for ulcer (Lannin), 712
Extremities, ischemic compression of, effects of environmental temperature on traumatic shock produced by (Green and Bergeron), 404
lower, surgical therapy of thrombosis of deep veins of (Fine and Starr), 232
Extremity, lower, surgery of deep venous thrombosis of (Veal and Hussey), 218
vascular insufficiency of, due to osteoma of femur (Rankin), 419

F

Fasciotomy, relief by; disaster following femoral vein ligation for thrombophlebitis; clinical case of renal impairment following crush injury (Dennis), 264
Feeding, jejunostomy, synthetic predigested aliment for (Hollander et al.), 754
Femoral vein ligation for thrombophelbitis, disaster following, relief by fasciotomy; clinical case of renal impairment following crush injury (Dennis), 264
Femur, osteoma of, vascular insufficiency of lower extremity due to (Rankin), 419
Finger amputations, treatment of tendons in, and description of new instrument (Webster), 102
Flagg type laryngoscopes, practical conversion of (MacQuigg), 472
Fluid, peritoneal, portal vein, and systemic circulation, intraperitoneal absorption patterns of sulfonamide drugs (with special reference to microcrystalline sulfathiazole) and comparison of coincident concentrations in (Pearce et al.), 351
Foot, trench (Boland, Jr., et al.), 564
Foreign body within pericardium, successful removal of (Watts and Toone), 454
Functional changes; hydronephrosis (II) (Hinman), 836

G

Gall bladder, congenital absence of (Dixon and Lichtman), 11
bladders, significance of polymorphonuclear leucocytes in (McKibbin and McDonald), 319
Gas gangrene, experimental, in wounded mice, certain sulfonamide drugs and certain derivatives of ascorbic acid in (Ryan et al.), 47
pains following abdominal operation, investigation of cause and prevention of (Davis and Hansen), 492
stoppage, sensation of, during onset of acute appendicitis (Keyes, Jr.), 270
Gastrectomy, total, creation of gastric pouch following (Engel), 512
Gastric acidity, evaluation of effect upon, and failure of such transplants to afford protection against ulcer provoked by histamine in beeswax; pedicled jejunal transplant onto gastric wall (Kolouch, Jr., et al.), 667
pouch, creation of, following total gastrectomy (Engel), 512
resection for certain acute perforated lesions of stomach and duodenum with diffuse soiling of peritoneal cavity (Bisgard), 498
in carcinoma of stomach, survival after (Custer), 510
schwannoma (Sanguily and Blanco), 328
secretion, attempt to confirm alleged inhibitory effect on, of jejunal pedicle grafts in wall of stomach (Grossman et al.), 685
ulcer and cancer (Allen), 750
experimental production of, in guinea pigs and cats with caffeine; influence of caffeine on ulcer genesis (Merendino et al.), 650
wall, pedicled jejunal transplant onto (Kolouch, Jr., et al.), 667
Gastroduodenal ulcer, removal of vagus innervation of stomach in (Dragstedt and Schafer), 742
General hospital, traumatic perforation of colon as seen in (Colcock), 1
Genesis, ulcer, influence of caffeine on (Merendino et al.), 650
Gland, thyroid, tuberculous abscess of (Klassen and Curtis), 552
Gluteal vein, extensive varicosities of leg originating from (Prioleau), 135
Graft, pedicle-tube, and tantalum plate, use of; plastic closure of skull defect (Harris and Woodhall), 422
Grafts, homogenous cartilage (Young), 616
jejunal pedicle, in wall of stomach, attempt to confirm alleged inhibitory effect on gastric secretion of (Grossman et al.), 685
Gynecology and gynecologic nursing, 640 (*B. Rev.*)
textbook of, 148 (*B. Rev.*)
Gynecomastia, pubertal bilateral, treatment of (Buirge et al.), 397

H

Hemostatic clamp, new (Cubero O.), 138
Heparin, efficacy of, administered by intravenous, intramuscular, and subcutaneous routes and study of effect of five bacteriostatic agents on heparin action (Walker, Jr.), 54
Herniorrhaphy and appendectomy, pulmonary complications following (Hughes and Lambeth), 533
Histamine in beeswax, ulcer provoked by, evaluation of effect upon gastric acidity and failure of such transplants to afford protection against; pedicled jejunal transplant onto gastric wall (Kolouch, Jr., et al.), 667
Homogenous cartilage grafts (Young), 616
Hospital, general, traumatic perforation of colon as seen in (Colcock), 1
Hydronephrosis (I), structural changes (Hinman), 816
(II) functional changes (Hinman), 836
(III) hydronephrosis and hypertension (Hinman), 845
Hypertension and hydronephrosis; hydronephrosis (III) (Hinman), 845

I

Incisions, surgical, influence of local application of sulfathiazole on incidence of infections in (More), 22
Infection, role of, in shock produced by muscle injury (Mahoney et al.), 805
Infections, chronic staphylococcus, value of staphylococcus toxoid in treatment and prevention of (Jern et al.), 363
in surgical incisions, influence of local application of sulfathiazole on incidence of (More), 22
staphylococcus, of peritoneum, prevention of (Daniel, Jr., and Holbrook), 39
Infusions and transfusions, intrasternal (Reich et al.), 560
Injection, retrograde, and ligation of saphenous vein, arterial spasm secondary to (Tunick et al.), 413
Injuries, maxillo-facial, dental treatment of, with supplementary material on cases and techniques, 149 (*B. Rev.*)
Injury, blast, of lung (Carlton, Jr., et al.), 786
chemical and other, to exposed mucosal surfaces, direct visual technique for studying (Kolouch, Jr.), 641
crush, clinical case of renal impairment following; disaster following femoral vein ligation for thrombophlebitis; relief by fasciotomy (Dennis), 264
muscle, shock produced by, role of infection in (Mahoney et al.), 805
Innervation, vagus, of stomach in gastroduodenal ulcer, removal of (Dragstedt and Schafer), 742
Instrument, new, description of, and treatment of tendons in finger amputations (Webster), 102
Internist's point of view; indications for operation in cases of peptic ulcer from (Bloomfield), 692
Intervertebral discs in low back, conservative and operative treatment of lesions of (Key), 291
Intragastric lesion, large, simulating a bezoar; gastric schwannoma (Sanguily and Blanco), 328
Intramuscular, intravenous, and subcutaneous routes, efficacy of heparin administered by, and study of effect of five bacteriostatic agents on heparin action (Walker, Jr.), 54
Intraperitoneal absorption patterns of sulfonamide drugs (with special reference to microcrystalline sulfathiazole) and comparison of coincident concentrations in portal vein, systemic cir-

Intrasternal infusions and transfusions (Reich et al.), 560
Intravenous clotting (Ochsner), 240
intramuscular, and subcutaneous routes, efficacy of heparin administered by, and study of effect of five bacteriostatic agents on heparin action (Walker, Jr.), 54
Iodine and thyroidism (Iason), 440
Ischemic compression of extremities, effects of environmental temperature on traumatic shock produced by (Green and Bergeron), 404

J

Jejunal pedicle grafts in wall of stomach, attempt to confirm alleged inhibitory effect on gastric secretion of (Grossman et al.), 685
transplant, pedicled, onto gastric wall (Kolouch, Jr., et al.), 667
Jejunostomy feeding, synthetic predigested aliment for (Hollander et al.), 754
Jejunum, proximal, regional enteritis of, following trauma (Spellberg and Gray), 343

K

Kidney, congenital malformations of, orthopedic surgery for reconstruction of (Gutierrez), 122
Knife, modified calibrated skin-grafting (Marcks), 109

L

Laryngoscopes, Flagg type, practical conversion of (MacQuigg), 472
Leg, extensive varicosities of, originating from gluteal vein (Prioleau), 135
veins, deep, etiology and prevention of thrombosis of (Hunter et al.), 178
Lesions, acute, perforated, of stomach and duodenum with diffuse soiling of peritoneal cavity, gastric resection for certain (Bisgard), 498
of intervertebral discs in low back, conservative and operative treatment of (Key), 291
Leucocytes, polymorphonuclear, in gall bladders, significance of (McKibbin and McDonald), 319
Ligation and retrograde injection of saphenous vein, arterial spasm secondary to (Tunick et al.), 413
femoral vein, for thrombophlebitis, disaster following; relief by fasciotomy; clinical case of renal impairment following crush injury (Dennis), 264
Lung, blast injury of (Carlton, Jr., et al.), 786

M

Malaria control, practical, 148 (*B. Rev.*)
Malformations of kidney, congenital, orthopedic surgery for reconstruction of (Gutierrez), 122
Mammillary tubercle of last thoracic vertebra, surgical and anatomic significance of (Kaplan), 78
Management, surgical, of varicose veins, complicating factors in (Smithy), 590
Mastopexy, one-stage; plastic surgery in reconstructing enlarged breasts (Lamont), 379
Maxillo-facial injuries, dental treatment of, with supplementary material on cases and techniques, 149 (*B. Rev.*)
Mechanism, allergic pathogenic, of thyrotoxicosis (Wilensky), 61
Medical treatment of peptic ulcer refractory to Sippy therapy (Winkelstein et al.), 696
Medicine, physical, Baruch committee on, 146
Meetings, review of recent, 142
Melanoma of skin, primary and metastatic, principle of excision and dissection in continuity for (Pack et al.), 849
Metabolic alterations following thermal burns (IV) (Abbott), 794
Metabolism manual, 150 (*B. Rev.*)
Metastatic and primary melanoma of skin, principle of excision and dissection in continuity for (Pack et al.), 849
Microcrystalline sulfathiazole, with special reference to; intraperitoneal absorption patterns of sulfonamide drugs and comparison of coincident concentrations in portal vein, systemic circulation, and peritoneal fluid (Pearce et al.), 351
Microcrystalline—Cont'd
Mucosal surfaces, exposed, direct visual technique for studying chemical and other injury to (Kolouch, Jr.), 641
Muscle injury, shock produced by, role of infection in (Mahoney et al.), 805

N

Nerve impulses, interruption of sympathetic; complicating factors in surgical management of varicose veins (Smithy), 590
Neurosurgical patient; his problems of diagnosis and care, 318 (*B. Rev.*)
Notices, 146
Nupercaine, description of simplified technique for, prolonged spinal anesthesia (Roman-Vega and Adriani), 524
Nursing, gynecologic, and gynecology, 640 (*B. Rev.*)
tropical, 149 (*B. Rev.*)

O

Occlusion, elective, and excision of portal vein (Brunschwig et al.), 781
Operation for ulcer, satisfactory, experimental evaluation of (Lannin), 712
gas pains following abdominal, investigation of cause and prevention of (Davis and Hansen), 492
in cases of peptic ulcer, indications for, from internist's point of view (Bloomfield), 692
Operative and conservative treatment of lesions of intervertebral discs in low back (Key), 291
Orthopedic surgery for reconstruction of congenital malformations of kidney (Gutierrez), 122
Osteochondritis, traumatic, of patella (Cox), 93
Osteoma of femur, vascular insufficiency of lower extremity due to (Rankin), 419
Osteomyelitis, bone regeneration following (Mayers), 463

P

Pains, gas, following abdominal operation, investigation of cause and prevention of (Davis and Hansen), 492
Pancreatitis, acute (Morton), 475
Patella, traumatic osteochondritis of (Cox), 93
Pathogenesis of caffeine-induced ulcers (Roth and Ivy), 644
Pathogenic mechanism, allergic, of thyrotoxicosis (Wilensky), 61
Pedicle grafts, jejunal, in wall of stomach, attempt to confirm alleged inhibitory effect on gastric secretion of (Grossman et al.), 685
Pedicle-tube graft and tantalum plate, use of; plastic closure of skull defect (Harris and Woodhall), 422
Pedicled jejunal transplant onto gastric wall (Kolouch, Jr., et al.), 667
Penicillin, treatment of empyema thoracis with, observations on (Blades et al.), 572
Peptic ulcer (Ochsner), 770 (*E*)
indications for operation in cases of, from internist's point of view (Bloomfield), 692
medical treatment of, refractory to Sippy therapy (Winkelstein et al.), 696
treatment of, 151 (*B. Rev.*)
Perforated duodenal ulcers, treatment of (Graham and Tovee), 704
lesions, acute, of stomach and duodenum with diffuse soiling of peritoneal cavity, gastric resection for certain (Bisgard), 498
Perforation of rectosigmoid (Kaufman et al.), 337
traumatic, of colon as seen in general hospital (Colcock), 1
Pericardium, foreign body within, successful removal of (Watts and Toone), 454
Peritoneal cavity, diffuse soiling of, gastric, resection for certain acute perforated lesions of stomach and duodenum with (Bisgard), 498
Peritoneum, prevention of staphylococcus infections of (Daniel, Jr. and Holbrook), 39
Peritonitis, appendical (Ochsner and Johnston), 873
Phthalylsulfathiazole and succinylsulfathiazole in surgery of colon (Poth), 773

Plasma of whole blood and electrolyte solution, effect of treatment with, following experimental burn; metabolic alterations following thermal burns (IV) (Abbott), 794
Plastic closure of skull defect (Harris and Woodhall), 422
surgery in reconstructing enlarged breasts (Lamont), 379
Plate, tantalum, and pedicle-tube graft, use of; plastic closure of skull defect (Harris and Woodhall), 422
cranioplasty with (Echols and Colclough), 304
Pneumonectomy, cardiovascular disturbances following (Seybold and Clagett), 538
Polymorphonuclear leucocytes in gall bladders, significance of (McKibbin and McDonald), 319
Polyposis of colon with carcinomatous degeneration, total colectomy for (Wilensky), 630
Portal vein, elective occlusion and excision of (Brunschwig et al.), 781
Postoperative pulmonary embolism (McCartney), 191
thrombosis and embolism, use of dicumarol in prevention of, with special reference to dosage and safe administration (Barker et al.), 207
Pouch, gastric, creation of, following total gastrectomy (Engel), 512
Predigested aliment, synthetic, for jejunostomy feeding (Hollander et al.), 754
Pressure changes, intrapleural, and blood pressure, attempt to correlate; cardiovascular disturbances following pneumonectomy (Seybold and Clagett), 538
Prevention of staphylococcus infections of peritoneum (Daniel, Jr. and Holbrook), 39
Proximal jejunum, regional enteritis of, following trauma (Spellberg and Gray), 343
Psychosomatic factors in surgical practice (Shacter), 429
Pubertal bilateral gynecomastia, treatment of (Buirge et al.), 397
Pulmonary complications following appendectomy and herniorrhaphy (Hughes and Lambeth), 533
embolism, postoperative (McCartney), 191

R

Reconstructing enlarged breasts, plastic surgery in (Lamont), 379
of congenital malformations of kidney, orthopedic surgery for (Gutierrez), 122
Rectosigmoid, perforation of (Kaufman et al.), 337
Rectum, carcinoma of, urologic problems associated with surgical treatment of (Lazarus), 284
Regeneration, bone, following osteomyelitis (Mayers), 463
Regional enteritis of proximal jejunum following trauma (Spellberg and Gray), 343
Removal, successful, of foreign body within pericardium (Watts and Toone), 454
Renal impairment, clinical case of, following crush injury; disaster following femoral vein ligation for thrombophlebitis; relief by fasciotomy (Dennis), 264
Resection, gastric, for certain acute perforated lesions of stomach and duodenum with diffuse soiling of peritoneal cavity (Bisgard), 498
in carcinoma of stomach, survival after (Custer), 510
Review of recent meetings, 635
